

Swine

Our Mission: "Defining and Delivering Superior Least Cost Nutrition."

Purina Mills features a full line of Swine Nutritional products to meet the needs of today's Swine producer. In addition we feature a full line of Show Chow Pig Feed for show pigs.

For more detailed product and nutritional information please visit our Swine Nutrition & Technology website at <http://swine.purinamills.com/>.

Show Chow® Pig First Step

The Purina Mills Research Team has developed a specially formulated, complete pelleted feed designed to meet the exact needs of young show pigs. It is a single-phase 22% protein and 1.5% lysine feed for show pigs weighing 25 to 50 lbs.

Show Chow® Pig Foundation

The Purina Mills Research Team has developed a specially formulated, complete pelleted feed designed to meet the exact needs of show pigs. This is a 21.0% protein and 1.4% lysine feed for show pigs weighing 50 to 175 lbs.

Show Chow® Pig Basis 18.5

The Purina Mills Research Team has developed a specially formulated, complete pelleted feed designed to meet the exact needs of show pigs. This is a 18.5% protein and 1.1% Lysine feed for show pigs weighing 50 to 180 lbs.

Show Chow® Pig Final Push

The Purina Mills Research Team has developed a specially formulated, complete pelleted feed designed to meet the exact needs of show pigs. This is a 19.5% protein and 1.3% lysine feed containing Paylean® for show pigs weighing 180 to 240 lbs.

Show Chow® Pig Burst Pay 108

Purina Mills® Show Chow® Pig Burst Pay 108 is a safe way for show enthusiasts to improve the carcass characteristics of their show pigs. Paylean® is a trademark name for the feed additive ractopamine hydrochloride. Ractopamine directs more nutrients toward muscle growth and less towards fat synthesis. Results can include more muscle mass, improved feed efficiency and rate of gain for your show pig.
